

CareerForce Updates

Inside Healthcare Hiring - Conversations with HR Leaders

- July 8th from 2-3pm (invite will be sent out soon)
- Join us for an exclusive virtual event where healthcare employers from across the state will connect directly with Job Service staff to share valuable insights into their hiring practices. This interactive session offers a unique opportunity to hear directly from HR professionals about what they look for in candidates—from resumes and qualifications to interview techniques. Attendees will be able to ask questions, learn employer preferences, and gain practical knowledge to better support job seekers in the healthcare field. Don't miss this chance to bridge the gap between employers and workforce development professionals!
- Microsoft form will be sent out soon - This is where you will be able to submit questions you would like the HR leader to address during the meeting. Please fill out the form ahead of the July 8th meeting!
